

MONTAG GEN 2 2112

DRY PRODUCT METERING SYSTEM

(AVAILABLE AS SINGLE PRODUCT ONLY)

GEN 2 2112 Bin has one fill inlet and the option of scales. All units use the Montag particulate metering system. Multiple U.S. and international patents cover either, or both, this product and its components.

Optional cart mounting kit (Shown above)

*Calculated using 64 lb/ft³ product density [1.025 kg/L]

†Unloaded, dry weight (approximated)

‡Excludes platform and mounting kit

GEN 2 2112

Specifications

Row Configurable: 2-12 rows

Section Configurable: 1-4 sections

Slide gate Control: Hydraulic cylinder

Bin Size: 135 ft³

Product Capacity: 135 ft³ [3,822 L] bin
4.3 ton [3,924 kg]*

Rate Capacity: See Rate Chart

Weight^{†‡}: 1,700 lb [680 kg]

Overall Height[‡]: 91 in [225 cm]

Overall Length[‡]: 108 in [275 cm]

Overall Width[‡]: 42 in [107 cm]

Product Fill Inlet Size: 9.90 ft² [0.92 m²]

Product Outlet Hose Size: 2.00 in [5.08 cm]

Req. Hydraulic Capacity: 14-18 gpm [53-68 Lpm]

Req. Hydraulic Press.: 2000 psi [138 bar]
