Mechanical Designer

Montag Mfg is a rapidly growing family owned business that manufactures agricultural equipment in the fertilizer cover crop industry. Montag Mfg is looking for someone that is self motivated and that would be able to work with the rest of the engineering staff on new and existing products. This position will be responsible for creating designs and drawings in Solidworks and potentially making prototypes in the shop at times.

Requirements:

- Self-driven, positive and motivated attitude and be able to work on projects with little supervision
- Needs to be a team player and exemplify the Montag Core values
- Needs to be proficient with Microsoft Office
- Knowledge of Solidworks software highly preferred
- Knowledge of Solidworks FEA & PDM Professional would be a plus
- Ability to fabricate and weld R&D prototypes preferred
- Knowledge of AutoCad preferred
- Knowledge of CNC programming a plus
- Epicor knowledge preferred

Benefits

- Starting wage: Negotiable based on experience
- Simple IRA with 3% matching
- 10 paid holidays (New Year's 2 / Good Friday 1 / Memorial Day 1 / Fourth of July 1 / Labor Day 1 / Thanksgiving 2 / Christmas 2).
- Vacation: 80 hours accrued/year – 120 hour/year after 3 full years – 160 hours/year after 7 full years
